The Alberta Guide to Sportfishing Regulations is a summary of the federal and provincial fishery regulations and is intended to assist those interested in sportfishing.

The official Statutes and Regulations should be consulted for all purposes of interpreting and applying the law. Clarification of the regulations may be obtained from your nearest Alberta Government office.

The Alberta Guide to Sportfishing Regulations is published annually by Sports Scene Publications Inc. 10450 – 174 Street, Edmonton, Alberta T5S 2G9. The publisher is responsible for the content of this publication, and is licenced by Alberta Government to publish the summary of the provincial and federal fishery regulations contained herein.

Provincial Statutes and Regulations, in print or electronic format, are available through the Alberta King's Printer (see page 27).

This document is provided free-of-charge to all recreational anglers in Alberta. With the exception of short quotations for review purposes, no portion of this document may be reproduced without written permission from Alberta Government or Sports Scene Publications Inc.

The views and opinions expressed by advertisers, or by the authors of the articles in the Non-Regulatory Information section of this document, are their own and not necessarily those of Alberta Government or Sports Scene Publications Inc.

CELEBRATING OVER 50 YEARS

the fishin' hole

Important Definitions

Bait – An attractant or organism (alive or dead) with scent or flavour to attract fish when attached to a hook or line used in angling. (See “Fishing with Bait” on page 22).

Bait Fish – See “Fishing with Bait Fish” on page 22.

Fizzing – Artificial swim bladder deflation. Involves puncturing the swim bladder through the musculature of the fish using a sharp object such as a hypodermic needle. As it causes undue harm to released fish and can increase the mortality of released fish, fizzing is illegal. The best practice is to not fish in deep water.

Gaff (gaff hook) – A device for landing or lifting fish, consisting of one or more sharpened hooks intended to stab the fish and attached to a handle. A gaff is illegal to possess while angling.

Hook – A single-, double- or triple-pointed hook on a common shaft, and includes hooks attached to a lure.
(Note: some legal lures appear to have a hook with four points, but actually have two shafts each with two points, meaning that this lure has two hooks).

Legal Land Descriptions

Some waterbodies and landmarks are identified in this Guide using the Alberta Survey System. Legal land descriptions are written as follows: (1-87-18-W4 for Section-Township-Range-West of the 4th Meridian)

Limit – Refers to the maximum number of fish you are allowed to keep or have in your possession (see **Catch Limits** on page 20).

Lure – A spoon, plug, jig, fly or other such device made of feathers, fibre, rubber, wood, metal, plastic or similar materials that does not attract fish by scent or flavour.

Maggots – The larval stage of flies (terrestrial dipterous insects). Does not include earthworms (angleworms, nightcrawlers, dew-worms), mealworms or the larvae, pupae or adults of aquatic insects.

Mainstem – The mainstem of a river includes the mainstem river channel as well as any side channels, oxbows as well as riparian channels and plunge pools below spillways downstream of reservoirs unless otherwise specified.

Mealworms – The larval stage of beetles (terrestrial coleopterous insects). Does not include earthworms (angleworms, nightcrawlers, dew-worms), maggots, wax worms or the larvae, pupae or adults of aquatic insects.

Minimum-size limits – All fish caught that are shorter than the stated length must be immediately released.

Maximum-size limits – All fish caught that are longer than the stated length must be immediately released.

Harvest slot limits – All fish caught that are shorter or longer than the harvest slot limit must be immediately released.

Quality Stocked Fisheries – Stocked trout fisheries which are managed to provide anglers with the opportunity to catch and occasionally keep a memorable fish.

Regulation Dates – In this Guide, where dates are given with a regulation, the fishing season starts and ends on the dates listed. For example May 15 to Mar. 31.

Snagging – Attempting to catch a fish using a hook:

- a) other than to induce the fish to voluntarily take the hook in its mouth; or
- b) by intentionally piercing and hooking a fish in any part of the body other than the mouth.

Snagging Device

- a) an instrument that is designed for the purpose of snagging fish; or
- b) hooks or lures that are altered to facilitate the snagging of fish.

Sportfishing – Angling (using hook and line), bowfishing or spearfishing, but also includes using a minnow trap, seine net or dip net to collect bait for personal use.

Sportfishing Seasons

- **OPEN** – sportfishing is allowed during the time period stated. During open seasons, sportfishing is permitted 24 hours a day unless stated differently for a specific waterbody.
- **CLOSED** – means all forms of sportfishing are prohibited.

Stream – Flowing water, and includes creeks, rivers and canals.

Tributary – Any stream that flows into a larger stream, or into a lake or reservoir. This includes a tributary to a tributary. Tributaries to a lake are considered to be tributaries to the outlet stream from the lake unless stated differently for a specific waterbody.

Watershed – An area drained by a stream or a series of streams and tributaries and includes any lakes and reservoirs whether or not they are directly connected to the stream.

Watershed Unit – Is a part of the larger Fish Management Zone and is the drained by the watershed described in text and illustrated on the map in the Guide. For example, NB1 is a subdivision of Northern Boreal

Watershed Boundaries – The boundaries between Watershed Units are illustrated on the maps in the Guide. These boundaries are differentiated by heights of land and the direction of flowing water.

RECOVERY OF TAGGED FISH

- Fisheries biologists occasionally tag fish for research.
- Tagging is non-lethal to fish.
- There are different kinds and sizes of tags ranging from the size of a grain of rice to the size of a D-cell battery (0.5 to 4 inches).
- Tags are usually placed under the skin near the dorsal fin (in the flesh) or inside the body cavity.
- Anglers should inspect their catches thoroughly for tags and remove them prior to consuming.

If you catch a tagged fish, please report it to the nearest Fish and Wildlife Office (see page 27 for contact details).

Put and Take Trout Stocking Program

The following list of lakes, reservoirs and ponds are managed as put and take trout fisheries. These are stocked frequently with catchable-sized trout. The regulations follow Maximum Possession limits and are listed in the table to the right.

Stocking can vary from year to year.
For up-to-date information on fish stocking:

Planned Stocking Dates can be found at open.alberta.ca/dataset/planned-trout-stocking

Fish Stocking Reports can be found at open.alberta.ca/publications/fish-stocking-list. This report is updated regularly throughout the stocking season.

Fish Stocking Maps can be found at:

- **MyWildAlberta** at <https://mywildalberta.ca/fishing/fish-stocking/stocking-maps.aspx> and
- The **Alberta Conservation Association** at <https://www.ab-conservation.com/programs/fish/aca-stocked-lakes/>

Provincial Regulations for Put and Take Stocked Lakes

- OPEN all year
- Bait is allowed
- 5 trout of any size
- 3 Northern Pike of any size
- 15 Yellow Perch of any size
- For other species, see Maximum Possession limits on page 20

Stocked Waterbodies with Special Regulations

Some recreational stocked waterbodies are managed with special regulations, such as catch-and-release, reduced bag limits, fishing seasons, and minimum size limits. These regulations help ensure fish are available for harvest in the waterbody or support Quality Stocked Fisheries that provide opportunities to catch and/or keep a “memorable” sized fish.

These waterbodies are listed in the Watershed Units' regulation tables beginning on page 30 and are identified by a “” symbol. Unless otherwise noted in the site specific table, regulations for other species follow provincial put-and-take stocked lake regulations; although species limits are shown for clarity, not all species may be present in each stocked lake.

Regulations and Information

General Sportfishing Restrictions

It Is Unlawful To:

- Possess or use a gaff or gaff hook.
- Use more than one line when angling into open water.
- Use more than two lines when angling into ice-covered water.
- While angling, be further than 30 m from any line in the water.
- Use a line in angling equipped with more than three hooks (e.g., three hooks, or three single-hook lures, or one three-hook lure).
- Use a lure in angling with more than three hooks as part of it.
- Use a hook with more than three points on a common shaft (see Important Definitions, Page 15).
- Release live fish or live fish eggs into any waters except back to the waters from which they were caught.
- Possess live crayfish. (See also Page 23)
- Possess live fish – unless the fish have been lawfully caught and are within 5 metres of the waters from which they were caught.
- Fizz fish – it is undue harm and reduces survival of released fish.
- Use live fish for bait.
- Use amphibians, such as frogs and salamanders, as bait.
- Dispose of unused bait within 50 metres of waterbodies except in a regularly serviced waste disposal receptacle.
- Set out or use bait to attract fish unless it is attached to a hook used in angling (that is chumming).
- Fish by snagging.
- Possess fish taken by snagging.
- Possess a snagging device (such as a gaff or gaff hook) while angling.
- Use gaffs, gaff hooks or spring-loaded hooks (spring-loaded hooks incorporate a device that snags/traps/holds the fish).
- Use snares, firearms, or any device to attract, stun or kill fish by causing an explosion or electrical current in the water.
- Use lights to sportfish unless the light is attached to a hook or line used in angling. This includes visible lights that are emitted by underwater cameras.
- Clean fish for transport home in a manner that is not authorized (see Cleaning and Transporting Fish, Page 25).

Additional Restrictions:

- The edible flesh of legally kept game fish must not be wasted, destroyed, spoiled or abandoned.
- Fish must not be removed from, or disturbed in, any facility or structure designed to capture, hold or facilitate the passage of fish.
- Fishing is prohibited by any method within 23 metres downstream of the lower entrance of any fishway, canal, obstacle or leap. Weirs and dams are considered obstacles.
- NOTE: Fishways, fish ladders, impoundment nets, fish traps and other similar structures may be set up to assist in the management or the study of fisheries, or to allow the passage of fish.

Catch Limits

In this guide, the word 'limit' refers to the number of fish you are allowed to keep or have in your possession. As outlined below, you may not exceed the Daily Catch Limit at any waterbody fished, nor possess more fish than the Maximum Possession Limit.

Releasing Live Fish – If the fish you catch is of a legal species and legal size, immediately decide to keep it as part of your Daily Catch Limit or release it. Fish kept on a stringer or a live well are considered retained and are part of your limit. See Pages 22 for details on releasing fish.

Possession – While a person is angling, a fish is considered retained (in possession) when it is not immediately released to the waters from which it was taken.

Daily Catch Limit – The number of fish you are allowed to keep while fishing in one day is equal to the limit listed for each species or group of species at the lake or stream being fished, including any fish eaten or given away that day. When you are fishing at any lake or stream, you may not have in your possession more fish than the limit, or fish other than those of legal size, listed for the lake or stream being fished.

Provincewide Maximum Possession – All fish kept from any lake or stream, from any Watershed Unit, count as part of the Maximum Possession that must not be exceeded. An angler may never possess more fish from a specific lake or stream than the Daily Catch Limit, but may possess a cumulative total of Daily Catch Limits of fish from different lakes or streams up to the allowed Maximum Possession limit for each species.

The Maximum Possession of fish you may have, including fish at your permanent residence, for each game fish species or group of species, including fish caught under a Special Harvest Licence, is listed below:

Fish Species	Maximum Possession Limit
Trout (combined)	5 in total, combined of:
Bull Trout	0 (native to Alberta)
Northern Dolly Varden	2 (historically stocked in Chester Lake)
Golden Trout	1
Lake Trout	3
Cutthroat Trout	5
Rainbow Trout	5
Brown Trout	5
Brook Trout	5
Tiger Trout	5
Arctic Grayling	0
Mountain Whitefish	5
Walleye & Sauger (in combination)	3
Walleye	3; or no more than 12 when harvested under authority of Special Harvest Licences when combined with any other licence
Northern Pike	3
Yellow Perch	15
Lake Whitefish & Cisco (Tullibee)	10 combined
Goldeye & Mooneye	10 combined
Burbot (Ling)	10
Lake Sturgeon	0
Non-game fish	No limit (includes sucker species)

NOTE: Limits and size restrictions at specific lakes and streams are listed in regulation tables for each Watershed Unit starting on page 30.

ZONE 1 - Eastern Slopes

■ The Eastern Slopes consists of the mountains and foothills that form the “Eastern Slopes” along the Rocky Mountains from Montana to the Grande Prairie region. Throughout this zone, tributary creeks flow into larger streams and into major rivers. These watersheds support numerous trout and mountain whitefish populations, as well as Arctic grayling populations in the north.

The Eastern Slopes four Watershed Units are the Oldman and Bow rivers (ES1), the Red Deer and North Saskatchewan rivers (ES2), the Athabasca and Pembina rivers (ES3) and the Smoky River (ES4).

ES1 WATERSHED UNIT REGULATIONS

■ the Oldman River watershed upstream of Secondary Road 509 near Coalhurst and the Bow River watershed upstream of Highway 24 near Carseland.

BAIT FISHING

- Fishing with Bait in ES1 streams is **NOT** allowed.
- Fishing with Bait is allowed at lakes without bait bans. Check the ES1 regulation tables for site specific regulations.
- Fishing with Bait Fish is **NOT** allowed in ES1 except at the following waters: Payne (Mami) Lake, Lees Lake, and Ghost Reservoir.

Alberta Government may implement time of day angling restrictions in this watershed unit in response to low stream flows and warmer water temperatures. Know before you go and check for any advisories, corrections or closures online at My Wild Alberta – **Advisories, Corrections and Closures**

Ice fishing: Angling is not permitted through the ice; a) into beaver ponds or b) into flowing waters in ES1
Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

ES1 Default Sportfishing Regulations			
• The names of most ES1 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages. • Smaller streams may not be listed, but may be included as tributaries to a listed larger stream. • If a listed waterbody does not have a season listed, it is CLOSED to fishing during that period. • If a ES1 lake, reservoir, river, stream or species is not listed, follow the default regulations below. • A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16 ; although species limits are shown for clarity, not all species may be present in each stocked lake.			
LAKES	• OPEN all year • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 5 • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Pike limit 3 • Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait except Bait Fish allowed		
STREAMS	• OPEN June 16 to Aug. 31 • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 2 • Cutthroat and Rainbow over 35 cm • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• OPEN Sept. 1 to Oct. 31 • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout and Mountain Whitefish limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• CLOSED Nov. 1 to June 15

ES2 WATERSHED UNIT REGULATIONS

■ The Red Deer River watershed upstream of the Dickson Dam west of Innisfail and the North Saskatchewan River watershed upstream of Highway 22/39 near Drayton Valley.

BAIT FISHING

- Fishing with bait in ES2 streams is **NOT** allowed.
- Fishing with Bait is allowed at lakes without Bait Bans. Check the ES2 regulation tables for site specific regulations.
- Fishing with Bait Fish is **NOT** allowed in ES2 except at the following waterbodies: Burnstick Lake, Brazeau Canal, Cow Lake, Jackfish Lake and Glennifer (Reservoir) Lake.

Alberta Fish and Wildlife may announce short-term emergency stream closures in response to low stream flows and warmer water temperatures. Sportfishing would be suspended and fishing not allowed for the duration of the emergency period.

Ice fishing: Angling is not permitted through the ice; a) into beaver ponds or b) into flowing waters in ES2

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

ES2 Default Sportfishing Regulations

- The names of most ES2 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a ES2 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (→) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN all year • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 5 • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Perch limit 15 • Mountain Whitefish limit 5 over 30 cm • Burbot limit 10 • Bait except bait fish allowed		
STREAMS	• OPEN Apr. 1 to Aug. 31 • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 2 • Cutthroat over 35 cm • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Burbot limit 10 • Bait Ban	• OPEN Sept. 1 to Oct. 31 • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout and Mountain Whitefish limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Burbot limit 10 • Bait Ban	• CLOSED Nov. 1 to Mar. 31

ES3 WATERSHED UNIT REGULATIONS

■ The Athabasca River watershed upstream of Secondary Road 658 near Whitecourt, and the Pembina River watershed upstream of Highway 43 near Sangudo.

BAIT FISHING

- Fishing with Bait in ES3 streams is restricted. Check the ES3 site specific regulations and default regulations for details.
- Fishing with Bait is allowed at lakes without Bait Bans. Check the ES3 regulation tables for site specific regulations.

Alberta Fish and Wildlife may announce short-term emergency stream closures in response to low stream flows and warmer water temperatures. Sportfishing would be suspended and fishing not allowed for the duration of the emergency period.

Ice fishing: Angling is not permitted through the ice; a) into beaver ponds or b) into flowing waters in ES3 except the portion of the Lobstick River lying in 53, 54-9, 10-W5 (Open June 16 to Oct. 31)

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

ES3 Default Sportfishing Regulations

- The names of most ES3 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a ES3 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN all year • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 5 • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait except bait fish allowed		
STREAMS	• OPEN June 16 to Aug. 31 • Athabasca Rainbow and Bull Trout limit 0 • Arctic Grayling limit 0 • Other Trout limit 2 • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• OPEN Sept. 1 to Oct. 31 • Athabasca Rainbow and Bull Trout limit 0 • Other Trout, Arctic Grayling and Mountain Whitefish limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• CLOSED Nov. 1 to June 15

Enjoy the great outdoors

Campers and backpackers 18 years and older require a Public Lands Camping Pass to spend the night on public land within the pass area.

3-day pass: \$20 per person
Annual pass: \$30 per person

ES4 WATERSHED UNIT REGULATIONS

■ The Smoky River watershed upstream of the 21st Base Line, and the Albright Creek watershed.

BAIT FISHING

- Fishing with Bait in ES4 streams is restricted. Check the ES4 regulation tables for site specific regulations.
- Fishing with Bait Fish in streams is **NOT** allowed except at portions of the Smoky and Little Smoky Rivers.
- Fishing with Bait including Bait Fish in lakes is allowed except at lakes listed with Bait Bans under the ES4 site specific regulations.

Alberta Fish and Wildlife may announce short-term emergency stream closures in response to low stream flows and warmer water temperatures. Sportfishing would be suspended and fishing not allowed for the duration of the emergency period.

Ice fishing: Angling is not permitted through the ice; a) into beaver ponds or b) into flowing waters in ES4

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

ES4 Default Sportfishing Regulations

- The names of most ES4 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a ES4 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN all year • Bull Trout limit 0 • Arctic Grayling limit 0 • Trout limit 5 • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait including Bait Fish allowed		
STREAMS	• OPEN June 1 to Aug. 31 • Bull Trout limit 0 • Trout and Arctic Grayling limit 0 • Mountain Whitefish limit 5 over 30 cm • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• OPEN Sept. 1 to Oct. 31 • Bull Trout limit 0 • Trout, Arctic Grayling and Mountain Whitefish limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Bait Ban	• CLOSED Nov. 1 to May 31

What's in your tacklebox?

Goose Lake	69-24-W5	OPEN ALL YEAR	●		3 fish	15 fish					
Iosegun Lake		OPEN MAY 15 TO MAR. 31	●	1 fish 45-50 cm	0 fish	15 fish	0 fish	10 fish			
	Tributaries	OPEN JUNE 1 TO OCT. 31	Bait ban	1 fish 45-50 cm	0 fish		0 fish				
Long Lake	68-24-W5	OPEN ALL YEAR	●		3 fish	15 fish					
Meekwap Lake		OPEN MAY 15 TO MAR. 31	●		1 over 63 cm	10 fish					
Pierre Greys Lakes 🚤	Lower or MacDonald Lake; 7-57-4-W6	OPEN ALL YEAR	Bait ban	3 fish	3 fish	15 fish				1 trout over 40 cm	
Raspberry Lake		OPEN MAY 15 TO MAR. 31	●		1 over 63 cm	10 fish					
Smoke Lake		OPEN MAY 15 TO MAR. 31	●	1 fish 50-55 cm	0 fish	15 fish	0 fish	10 fish			
	Tributaries	OPEN JUNE 1 TO OCT. 31	Bait ban	1 fish 50-55 cm	0 fish		0 fish				
Snipe Lake		OPEN MAY 15 TO MAR. 31	●	1 over 50 cm	1 fish 63-70 cm	5 fish	10 fish	10 fish			
	Tributaries and outlet 1 km downstream	OPEN JUNE 1 TO OCT. 31	Bait ban	1 over 50 cm	1 fish 63-70 cm	5 fish	10 fish	10 fish			
Sturgeon Lake		OPEN APR. 1 TO SEPT. 30 AND JAN. 16 TO MAR. 31	●	1 fish 45-50 cm	0 fish	5 fish	0 fish	10 fish			
		OPEN OCT. 1 TO JAN. 15 BETWEEN SUNRISE AND SUNSET	●	1 fish 45-50 cm	0 fish	5 fish	0 fish	10 fish			
	Goose Creek tributary	OPEN JUNE 1 TO OCT. 31	●	1 fish 45-50 cm	0 fish	5 fish	0 fish	10 fish			

ES4 - Rivers, Creeks and Streams								
Waterbody	Waterbody Detail	Season	Bait	WALL	NRPK	BURB	MNWH	Trout Total
Cutbank River	Mainstem including tributaries	OPEN JUNE 1 TO OCT. 31	Bait ban				5 over 30 cm	5 trout
Deep Valley Creek	Mainstem including tributaries	OPEN JUNE 1 TO OCT. 31	Bait ban				0 fish	0 trout
Grizzly Creek	Tributary to Kakwa River	CLOSED ALL YEAR						
Kakwa River	Mainstem including tributaries except Lynx Creek	OPEN JUNE 1 TO OCT. 31	Bait ban				0 fish	0 trout

ZONE 2 - Parkland-Prairie

■ The Parkland-Prairie consists approximately of the southeastern quarter of the province, east of Highway 2 from the Montana border to the North Saskatchewan River. Four major rivers that start in the mountains flow through the Parkland-Prairie. Shallow lakes and reservoirs are also found in the Parkland-Prairie.

The Parkland-Prairie two Watershed Units are the Milk and South Saskatchewan rivers, including portions of the Oldman and Bow rivers (PP1), and the Red Deer, Battle and North Saskatchewan rivers (PP2).

PP1 WATERSHED UNIT REGULATIONS

■ The Milk River watershed, and the South Saskatchewan River watershed upstream to Secondary Road 509 on the Oldman River near Coalhurst, including the St. Mary River watershed, and upstream to Highway 24 on the Bow River near Carseland.

BAIT FISHING

- Fishing with Bait, including Bait Fish in PP1 lakes and streams is allowed except at locations listed with Bait Bans under site specific regulations.

Alberta Government may implement time of day angling restrictions in this watershed unit in response to low stream flows and warmer water temperatures. Please see the Important Information page and My Wild Alberta webpage for more information.

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

PP1 Default Sportfishing Regulations

- The names of most PP1 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a PP1 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

See pages 60-62
for PP1 waterbody
specific regulations.

LAKES	• OPEN all year • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 5 • Mountain Whitefish limit 5 over 30 cm • Bait allowed	
STREAMS	• OPEN May 8 to Mar. 15 • Lake Sturgeon limit 0 • Trout limit 2 • Mountain Whitefish limit 5 over 30 cm • Walleye and Sauger limit 3 • Walleye over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Goldeye limit 10 • Bait allowed	• CLOSED Mar. 16 to May 7

Legend: As examples, '3 over 63 cm' indicates a possession and size limit of '3 fish each over 63 cm' or '10 fish' indicates a possession limit of 10 for that species of any size. An empty cell indicates the species is not likely present at that waterbody; however, if caught the default regulations for the Watershed Unit apply - unless the waterbody is stocked, in which case provincial put and take stocked lake regulations apply (see p. 16). SHL=Special Harvest Licence, BKTR = Brook Trout, BNTR=Brown Trout, BURB = Burbot, CISC = Cisco, CTTR = Cutthroat Trout, DLVR = Dolly Varden, GOLD = Goldeye, LKTR = Lake Trout, LKWH = Lake Whitefish, MNWH = Mountain Whitefish, NRPK = Northern Pike, RNTR = Rainbow Trout, SAUG = Sauger, TGTR = Tiger Trout, WALL = Walleye, YLPR = Yellow Perch. **Regulation changes are highlighted blue.** Waterbodies closed to angling are highlighted grey.

PP2 WATERSHED UNIT REGULATIONS

■ The Red Deer River watershed downstream of the Dickson Dam west of Innisfail, the Battle River watershed, and the North Saskatchewan River watershed downstream of Highway 22/39 near Drayton Valley, excluding tributary watersheds entering on the left (north) bank downstream of Highway 38 near Redwater (NOTE: The boundary between the Parkland-Prairie and Northern Boreal zones follows the north terrace and river break along the North Saskatchewan River valley).

BAIT FISHING

- Fishing with Bait, including Bait Fish, in PP2 lakes and streams is allowed except at locations listed with Bait Bans under site specific regulations.

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

PP2 Default Sportfishing Regulations

- The names of most PP2 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is CLOSED to fishing during that period.
- If a PP2 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN all year • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 2 (Burbot limit 0 Feb. 1 to Mar. 31) • Trout limit 5 • Mountain Whitefish limit 5 over 30 cm • Bait allowed	
STREAMS	• OPEN May 15 to Mar. 31 • Lake Sturgeon limit 0 • Walleye and Sauger limit 3 • Walleye over 50 cm • Northern Pike limit 3 over 63 cm • Trout limit 2 • Mountain Whitefish limit 5 over 30 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 2 (Burbot limit 0 Feb. 1 to Mar. 31) • Goldeye limit 10 • Bait allowed	• CLOSED Apr. 1 to May 14

Pleasure Craft Operator Training

BOATING SAFETY INSTRUCTION PRESENTED BY

Now Available Online at
www.albertaboatsafety.com

Are you interested in obtaining your Pleasure Craft Operator Card?

AHEIA is proud to announce that it is now accredited by Transport Canada to provide this licence's required instruction.

Responsibilities • Equipment Requirements • Safety Flags & Signals
 Canadian Water Laws & Regulations • General Boat Operations Tips

This card is valid nationwide and never expires!

FAWCETT LAKE RESORT

IS IT TIME TO GET A LAKE LOT?

Lots start at \$2200 for the season
Most lots are larger than 5000 square feet

photo by Candice Albach

www.fawcettlakeresort.com **587.877.0746**

Legend: As examples, '3 over 63 cm' indicates a possession and size limit of '3 fish each over 63 cm' or '10 fish' indicates a possession limit of 10 for that species of any size. An empty cell indicates the species is not likely present at that waterbody; however, if caught the default regulations for the Watershed Unit apply - unless the waterbody is stocked, in which case provincial put and lake stocked lake regulations apply (see p. 16). SHL=Special Harvest Licence, BKTR = Brook Trout, BNTR=Brown Trout, BURB = Burbot, CISC = Cisco, CTTR = Cutthroat Trout, DLVR = Dolly Varden, GOLD = Goldeye, LKTR = Lake Trout, LKWH = Lake Whitefish, MNWH = Mountain Whitefish, NRPK = Northern Pike, RNTR = Rainbow Trout, SAUG = Sauger, TGTR = Tiger Trout, WALL = Walleye, YLPR = Yellow Perch. **Regulation changes are highlighted blue.** Waterbodies closed to angling are highlighted grey.

	NE-11-38-28-W4; Includes Cygnet Lake	CLOSED ALL YEAR									

ZONE 3 - Northern Boreal

■ The Northern Boreal consists of a vast area of central and northern Alberta consists of boreal forest. Throughout the boreal forest, many of the streams are low gradient, brown water streams which in turn are part of the major drainage basins of the Athabasca, Peace and Hay rivers. The majority of the lakes in Alberta occur in the boreal forest zone.

The four Northern Boreal Watershed Units (NB1-NB4) are made of the Beaver, Athabasca, La Biche, Lesser Slave, Pembina, Peace, Wabasca, Hay, Christina, Clearwater rivers and Lake Athabasca watersheds.

NB1 WATERSHED UNIT REGULATIONS

■ The Beaver River watershed and the Athabasca River watershed between the north boundary of Township 78 (near Pelican River) and Sec. Rd. 813 (near the town of Athabasca), including the Calling River watershed, and the La Biche River watershed (NOTE: the tributary watersheds, including several lakes in the “Lakeland District,” entering on the left downstream bank [north bank] of the North Saskatchewan River downstream of Highway 38 near Redwater are also part of NB1).

BAIT FISHING

- Fishing with Bait, including Bait Fish in NB1 lakes and streams is allowed except at locations listed with Bait Bans under site specific regulations.
- Mainstem of a river:** includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

NB1 Default Sportfishing Regulations		
• The names of most NB1 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages. • Smaller streams may not be listed, but may be included as tributaries to a listed larger stream. • If a listed waterbody does not have a season listed, it is CLOSED to fishing during that period. • If a NB1 lake, reservoir, river, stream or species is not listed, follow the default regulations below. • A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.		
LAKES	• OPEN May 15 to Mar. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 3 • Bait allowed	• CLOSED Apr. 1 to May 14
STREAMS	• OPEN June 1 to Oct. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Mountain Whitefish limit 5 over 30 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 2 • Bait allowed	• CLOSED Nov. 1 to May 31

Spencer Lake	NOTE: Spencer Lake is located in the Cold Lake Air Weapons Range and live ammunition is used in the area. Use of the lake by anglers is dependent on the approval of the Canadian Forces at the Base. If necessary for Base operations, access to Spencer Lake may be closed during some of the open periods listed above. Due to safety concerns, the Canadian Forces does not permit overland access to Spencer Lake on any trails that are inside the Bombing Range boundary, including the trail between Seibert and Spencer lakes. Spencer Lake may only be accessed from the west tip of Spencer Lake and it is unlawful to go ashore inside the bombing range boundary. A record waiting to be broken.

Cold Lake, Alberta

1929, 52 lb 8oz lake Trout caught by Mrs. Erickson

Since 1929, Cold Lake has held the record for the largest Alberta Lake Trout. Legends say the fish known as the Kinosoo is still out there, hiding in the deep waters of Cold Lake. Will you be the one to reel it in?

www.coldlake.com

Legend: As examples, '3 over 63 cm' indicates a possession and size limit of '3 fish each over 63 cm' or '10 fish' indicates a possession limit of 10 for that species of any size. An empty cell indicates the species is not likely present at that waterbody; however, if caught the default regulations for the Watershed Unit apply - unless the waterbody is stocked, in which case provincial put and take stocked lake regulations apply (see p. 16). SHL=Special Harvest Licence, BKTR = Brook Trout, BNTR=Brown Trout, BURB = Burbot, CISC = Cisco, CTTR = Cutthroat Trout, DLVR = Dolly Varden, GOLD = Goldeye, LKTR = Lake Trout, LKWH = Lake Whitefish, MNWH = Mountain Whitefish, NRPK = Northern Pike, RNTR = Rainbow Trout, SAUG = Sauger, TGTR = Tiger Trout, WALL = Walleye, YLPR = Yellow Perch. Regulation changes are highlighted blue. Waterbodies closed to angling are highlighted grey.

NB2 WATERSHED UNIT REGULATIONS

■ The Athabasca River watershed between Sec. Rd. 813 near Athabasca and Sec. Rd. 658 near Whitecourt, including the Lesser Slave River watershed and the Pembina River watershed upstream to Highway 43 near Sangudo.

BAIT FISHING

- Fishing with Bait in NB2 streams is **NOT** allowed except at portions of a few rivers under NB2 site specific listing regulations.
- Fishing with Bait in NB2 lakes is allowed, except at lakes listed with Bait Bans under NB2 site specific regulations.
- Fishing with Bait Fish is allowed except at locations listed with Bait Bans under NB2 site specific regulations.

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

NB2 Default Sportfishing Regulations

- The names of most NB2 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a NB2 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN May 15 to Mar. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 3 • Bait allowed	• CLOSED Apr. 1 to May 14
STREAMS	• OPEN June 1 to Oct. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Pike limit 3 over 63 cm • Mountain Whitefish limit 5 over 30 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 2 • Bait Ban	• CLOSED Nov. 1 to May 31

NB4 WATERSHED UNIT REGULATIONS

■ The Athabasca River watershed downstream of the north boundary of Township 78 (near Pelican River), including the Clearwater River and Christina River watersheds, and the Slave River and Lake Athabasca watersheds, including the lakes and streams north of Lake Athabasca.

BAIT FISHING

- Fishing with Bait, including Bait Fish, in NB4 lakes and streams is allowed except at locations with Bait Bans listed under site specific regulations.

Mainstem of a river: includes the mainstem channel and any side channel, oxbows, riparian flow channels, and plunge pools below spillways.

NB4 Default Sportfishing Regulations

- The names of most NB4 lakes and streams are listed alphabetically in the site specific regulation tables on the following pages.
- Smaller streams may not be listed, but may be included as tributaries to a listed larger stream.
- If a listed waterbody does not have a season listed, it is **CLOSED** to fishing during that period.
- If a NB4 lake, reservoir, river, stream or species is not listed, follow the default regulations below.
- A fish symbol (🐟) indicates a stocked waterbody with special trout regulations. Unless otherwise listed, regulations for other species follow the general regulations for stocked trout lakes on page 16; although species limits are shown for clarity, not all species may be present in each stocked lake.

LAKES	• OPEN May 15 to Mar. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 3 • Bait allowed	• CLOSED Apr. 1 to May 14
STREAMS	• OPEN June 1 to Oct. 31 • Arctic Grayling limit 0 • Walleye limit 3 over 50 cm • Northern Pike limit 3 over 63 cm • Mountain Whitefish limit 5 over 30 cm • Yellow Perch limit 15 • Lake Whitefish limit 10 • Burbot limit 10 • Trout limit 2 • Bait allowed	• CLOSED Nov. 1 to May 31

and their skilled staff support the stocking of more than 240 lakes and ponds across Alberta. Fish culture is a year-round process. From spawning and rearing fish to preparing them for transport, this continuous work ensures Albertans can access a wide range of fishing opportunities throughout the province.

STOCKED FOR ADVENTURE: FISHING OPPORTUNITIES FOR EVERY ANGLER

Stocked trout form an important pillar of Alberta's recreational fishing program. Depending on where you fish, you may catch rainbow, brook, brown, tiger, or cutthroat trout. All are raised in Alberta hatcheries, and each species offers a different fishing experience.

Fish are stocked in a variety of waterbodies to support different types of anglers, including:

- **Urban ponds**, which are ideal for families and new anglers learning the basics.
- **Quality stocked fisheries**, where trout are stocked at a young age and grow for several years, often reaching large sizes.
- **Diversified fisheries**, where more than one trout species is stocked to increase variety.
- **Remote and alpine lakes**, often stocked by helicopter, offering quiet fishing experiences in mountain and remote settings.
- **Crown land and provincial park waters**, providing fishing opportunities across Alberta's natural picturesque landscapes.

Most stocked lakes are managed as put-and-take fisheries. This means fish are stocked specifically to be caught and kept during the fishing season. Some lakes are

stocked multiple times in spring and fall to maintain good catch rates, especially where fish cannot survive the winter. Alberta also boasts many put-grow-take fisheries that give anglers the chance to catch a trout that rivals the size of their steelhead cousins from the west coast!

HOW A LAKE MAKES THE TROUT STOCKING LIST

Trout stocking has a storied history in Alberta for over 100 years, including within the national parks, and trout, in all its forms, remains one of the most popular sportfish in North America. However, not all lakes or ponds are suitable for stocking. Before fish are introduced, each waterbody is carefully assessed for the right conditions trout need to survive and grow.

Biologists consider conditions, like habitat quality, water temperature, and dissolved oxygen levels. Trout generally need cool, well-oxygenated water and do best at temperatures below 18°C. Sudden changes in water quality, temperature, or pH can make a lake unsuitable, sometimes making a permanent impact. Shallow lakes or those with limited habitat may only support seasonal or put-and-take fisheries.

Biologists must also check for competing or invasive species that could limit the success of a stocked fishery. Invasive carp, mussels, and other organisms can damage habitat, reduce water quality, and spread disease. Once invasive species become established, they are very difficult to remove and can result in fishing closures while restoration efforts are carried out. The release of aquarium species or transfer of
